## **PROUDLY MANUFACTURING SANDPAPER SINCE 1971**

Virginia Abrasives' roots date back to the early 1970's, when a hard rock garnet abrasive mining business in the Adirondack mountains of New York decided to invest in the sandpaper manufacturing business.

In the late 70's Virginia Abrasives identified the equipment rental market as a target opportunity for wood floor sanding abrasives. Fairly quickly, the company became a major supplier to the industry, with a specialized product and service offering that met the needs of the equipment rental dealer - package quantity, product performance, lead times, competitive pricing, and personalized, world class service for which the company remains well known.

The company has expanded its product portfolio to include a vast assortment of cutting, finishing, surface preparation, and floor care products and solutions. This includes diamond abrasives for concrete, asphalt cutting and surface preparation, floor scraper blades, scarifier tooling, flooring tools and fasteners for installing hardwood flooring, and concrete power trowel blades, as well as a range of construction equipment, walk-behind saws, core drills and floor grinders.

Today, Virginia Abrasives' manufacturing facility remains in history-rich Petersburg, VA. With extensive inventory of thousands of products, Virginia Abrasives is able to ship orders same-day to thousands of independent dealers, national accounts and hardware cooperatives, with most orders delivering in 3 business days or less.

Virginia Abrasives also feels that investing in the human resources to support our excellent customers is critical. The company maintains an extensive network of manufacturers' representatives nationwide, as well as channel sales managers, inside sales representatives and world class customer-service representatives, covering the U.S. with this team of roughly 50 sales and service professionals.

## FIVE STAR REVIEWS

"Great company! Working with them for decades." Michael D. said. "I started with sandpaper, and as they expanded, I tried new stuff. I now purchase abrasives, diamond, and equipment from them and am never disappointed. Easy to work with, free freight, and friendly on the phone. 5 stars."

## MADE IN USA

Proudly manufacturing sandpaper in the USA in Petersburg, VA since 1971.

## SATISFACTION GUARANTEED

You will be satisfied with the products in your order or we will take them back.

## SERVICE BEYOND COMPARE

Our team, including Channel Managers, Inside Sales Representatives, and Customer Service specialists, is always hard at work to support you. With over 60 combined years of experience at Virginia Abrasives, they bring a wealth of knowledge and expertise to the table. They know our products inside and out, understand abrasives, and are dedicated to recommending the best solutions to ensure your job gets done right the first time.

## PASSIONATE ABOUT PRECISION

We know you can purchase your abrasives products from anywhere in the world. Our hope is that you take the time to get to know us and you will not be disappointed.
